Cover Art

“Hope & Love” by Dana Haigh

It's an Alcohol Ink piece Dana donated to a fundraiser for Newhouse Wildlife Rescue. It's one of their rescue foxes named

Hope and one of the kits she adopted while at the rescue. It's a beautiful story with a happy ending. All the proceeds Dana makes off of the print are donated to Newhouse Wildlife Rescue.

Dana Haigh has been creating Art for over 30 years. She recently discovered a love affair with watercolor, a growing fondness for acrylics, and a passion for alcohol inks; the delicate florals and abstract fluidity she creates evoke the beauty of nature, while the silhouettes present in her work represent the human connection to the natural world. Dana is an alcohol inks instructor at PCC and sells her art through shows and her website, dhaigh.artspan.com.

Gentle Yoga & Guided Relaxation

Rachael Bielecki

Guided relaxation (Yoga Nidra) is a systematic method of guided relaxation that has a profound effect on the body, mind and emotions. During the practice, you are guided through various stages of deeper relaxation, allowing the mind to become more relaxed and more receptive. The class begins with 20-25 minutes of gentle yoga and is followed by 35-40 minutes of guided relaxation. Students feel rested, relaxed, less stressed, and have a great night's sleep after practicing this yoga technique.

NATURE & OUTDOORS

Spring Bird Migration

Spring bird migration is one of nature's greatest annual journeys. Billions of migratory birds leave their wintering grounds and travel to their northern home for food and breeding. Some make a brief stop in New England before flying farther north and some raise their young here. Scott Wilson, an avid birder and guide, will offer four guided walks to observe these migrating birds as spring unfolds.

Moth Night!

Tom Murray

On a typical night in late Spring, there could be anywhere from 50 to 150 species of moths plus maybe another 50 other insects such as beetles, flies, leafhoppers, and more in Tom's yard. Tom Murray, author of "Insects of New England and New York", will set up two moth sheets lit with mercury vapor lights to observe whatever moths and other insects come to visit that night. Weather plays an important role in how many bugs show up. A warm humid calm night is best. The moth night starts when it gets dark and can end at midnight or later.

The Secret to Raised Garden Beds

Trevor Smith

Join us to learn the secrets to growing nutritious and delicious vegetables in a raised garden bed! Trevor Smith, Weston Nurseries’ Design and Education Manager, believes raised beds are more pest resistant, weed resistant, easier on the body, and easier to control and maintain the soil quality. All of the nutrients in our vegetables come from the soil. The key to a successful long-term raised bed growing is to create a soil that mimics nature and fosters all the beneficial soil life and function that plants need to pack their leaves and fruits with all the nutrients and polyphenols that are key to your health. Join us as Trevor unpacks all this information and jumpstarts spring gardening.

The Seasons of Japan

Wendy Dodek

Since ancient times, Japan has been a nation enamored with the beauty of the seasons. This reverence for nature is reflected in Japanese art and poetry and even the country's daily life. Every fall the colorful leaves are celebrated with leaf-shaped treats. In March, plum blossoms are celebrated in social events. Even in technology-driven modern Japan, so much of everyday life still revolves around the foods, the flowers and the festivals that fill the year. Experience a calendar year in Japan with images and stories, from New Year's Day to the ringing of temple bells in the final moments of Dec 31.

FOOD & DRINK

Do You Think You Know About Vodka?

Miguel Salguero

The world of vodka is very complex and diverse. Even though the name vodka is a diminutive of the Russian voda (“water”), the origins of the liquor are a matter of debate. While the mystery is still being revealed, we will have fun learning how to properly make popular vodka cocktails. You can then use that knowledge to make exciting vodka cocktails at home.

Gin and its Botanicals

Miguel Salguero

Gin is a very complicated spirit, not by its taste but by category. The mixologist, Miguel Salguero, will give us a tour of how gin has developed its own deserved place in the liquor industry, with the addition of juniper berries and an endless array of other botanicals like spices or herbs. Come and explore the taste of gin, from the basics to the most modern styles. The reason people say they don't like gin is because they haven't found their gin yet. Get ready for a new love!

The Wonders of Rum

Miguel Salguero

Learn about rum's diverse culture and origins! Rum is among the most popular spirits in the world and a favorite among bar staff for its versatility and wide range of flavor profiles. Whether you're creating a dry and clean drink or a sweet one with a bit of spice, there's a rum out there for you. Miguel Salguero, an expert mixologist at Gibbet Hill Grill, will dive into rum's diverse backgrounds, what makes rum 'rum,' the brands, and how to make cocktails with three different types of rum (Bacardi Silver, Kraken Dark rum, and Flor de Cana amber or aged rum)! The class will give the opportunity to learn, engage, and socialize.

GOING PLACES SUMMER FUN PROGRAM

PRESCOTT COMMUNITY CENTER'S

Going Places SUMMER

1st-4th Grade | Monday-Friday 9am-3pm
6 Weeks: July 8th-August 16th | **\$275 per week**

Pick & Choose the Weeks YOU Want!

Join us for weekly Summer Fun! Inspired by characters in the book *Going Places*, campers are immersed in real world challenges and hands-on fun. With a new and exciting theme each week, campers will work together to create, imagine, build, and explore. All while building friendships and having some **major summer fun!**

July 8-July 12: The Great Race!

This week, campers collaborate and using teamwork and their imaginations compete to create the most amazing and imaginative toy go-cart anyone has ever seen. We engineer unique racers, learn about propulsion, experiment with simple machines and design a challenging racecourse for their special speed racers!

July 15-July 19: Krazy Kinetic Parade!

This week, campers create a kinetic energy float using wind, solar, gravity or pedal power. How do they do that?! Join us as we team up and power onward in our kinetic parade float and celebrate at week's end with a parade!

July 22-July 26: Animal Adoption Match-up!

This week, campers build an app that matches cute shelter animals to loving families. Campers use the power of imagination to merge the world of pet care with the tools of technology. I-Pads and all technology provided.

July 29-Aug 2: Lights On!

Campers create solar powered lamps after learning about a community who has lost its electricity in a storm. Campers investigate alternative forms of energy and have some fun with the sun. Creative problem solving and fun on the field come together to help others.

Aug 5-Aug 9: Ocean Rescue!

In Ocean Rescue, campers invent the PlasticSuperScooper3000 to extract hazardous trash from the ocean. Campers become marine biologists with a mission to protect the wildlife that lives in our oceans.

Aug 12-Aug 16: Take the Show on the Road!

In this week, campers design a movable theatre to put on plays. Campers write, direct, choreograph, stage and promote our own productions. We also design and build a scale theatrical set model like the pros. The week culminates in a theatrical presentation.

INFORMATION & POLICIES

>> Class Location & Instructors

All classes to be held at the Prescott Community Center, 145 Main Street, unless otherwise noted in the class description. Most of our Instructors are independent contractors or volunteers; curriculum is their responsibility and learning rests with the instructor and students.

>> Holidays, Cancellations, & Make-Up Classes

Classes are not held on legal holidays except where noted. PCC reserves the right to cancel any course with insufficient enrollment within 3 days prior to the first date of the class. In the event of a class cancellation or make-up class we notify participants using phone numbers or emails provided to us. To avoid cancellations, we urge you to sign up for classes 7 days before the start date of a class.

>> Class Withdrawals & Refund Policy

- A refund of the fee less a 10% processing fee will be given if you withdraw 3 or more days prior to the start of the class.
- No refunds will be given if you withdraw 2 days or fewer before the class starts.
- Full refunds will be given for any class that is canceled due to low enrollment.
- We will do our best to schedule make-up sessions when weather forces us to cancel classes.

>> Snow Days

- The Prescott Community Center follows the Groton Dunstable schools weather cancellation schedule. Prescott will inform students and instructors as far ahead as possible via email, social media, a recording on our office voice mail (978-877-6933) and the PCC website (prescottscc.org) of weather- related closings.
- We care about your safety and should the weather preclude attendance, contact the office at 978-877-6933 prior to the class. Notifications after the class has taken place will not be eligible for a credit/refund.
- We will work with students who can't attend a make-up class on a case-by-case basis to offer an equitable solution.
- In all cases, students may consider applying the cost of the class to a tax-deductible donation to Prescott.

>> Special Needs

Prescott Community Center is universally accessible. We are committed to serving the needs and interests of everyone in the community-adults, children, seniors and individuals with disabilities. If you need special accommodations, please email the office at connectwithus@prescottscc.org or call 978-877-6933.
